

Job Opening for Field Assistant (Job Code – 35)

(All applicants must list Job code number in their application to be considered)

TIGS is a program driven research institute with a focus on solving pressing societal challenges. We are seeking applications from enthusiastic candidate to join as Field Assistant for assisting with field collections of mosquitos, their identification, rearing work in the insectary, and associated mosquito-related work. If you're passionate about making a difference in public health and want to be part of our cutting-edge projects, we want to hear from you!

Website: www.tigs.res.in

Roles and Responsibilities:

- You will assist researchers with field collections of mosquitoes, identify species, and extract their guts (or other tissues).
- You will assist in rearing mosquito cultures in the insectary.
- You will assist in setting up behavioural assays with mosquitoes

Key skills: You should have the ability to work in field, learn the methods for sampling and the use of different traps, be diligent in record keeping, learn mosquito taxonomy and identification, learn to dissect some mosquito tissues, set up simple behavioural experiments, and rear mosquitoes in the insectary.

Number of positions: 01

Essential Qualifications/Requirements

Degree is not essential. We are looking for someone who is enthusiastic, will learn these methods, and will work well with other researchers in the lab.

Duration: Initially for one year.

If you are interested in applying for the above research position, please send the following documents, with a clear reference to the job number listed above & to the following email address: jobs@tigs.res.in

- A cover letter.
- CV with email, phone number and contact details of **two referees**.

Applicants must list Job no JC - 35 in their application to be considered.

Application Deadline: March 13, 2026
